Amphetamine chaser inspires insomnia
Like a broken record repeating a pattern of death
Sleep deprivations spawns awkward dementia
Of high tension toxic, hollow tip ethic

Groping for closure
An extension of quota gate
Going to what lengths
To confirm a presumption of death

Coordinate a diet based around pills
A feasibility study of production enhancement
Many a false step is made standing still
Scuttle watch worry mind fuck again and again

Groping for closure
An extension of quota gate
Going to what lengths
To confirm a presumption of death

Again and again
