this time the glove is latex
this time the suit is white
new life has found a place
it's laid eggs in someone's eyes

Hook:

i want control
even when you don't
would i still want control
even when you don't
would i still want control
even when you don't
would i still want control
even when you don't
your skin's a lot like plastic
some kind of bad disguise
transfusing blood for paper
so sweet, you're drawing flies

Hook:times 2
