So this is how you live your life?
Well every action has a cost
Like cutting through butter with a hot, hot knife
Antique of the Third Reich
It's no right now
You and your show
I know the blank, white trash lies
Never grow, waiting to settle the score
I'm stunned it still happens
A trailer park education packed
With fear deep-seated right in your lap,
A mental bath
Little man grows up so fast
So teach him quick to learn all your tricks
Politics steeped in ignorance, it makes me sick
It's not right now
You and your show
I know the blank, white trash lies
Never grow, waiting to settle the score
You've got a circle and a cross tattooed on your arm
It's not right now
You and your show
I know the blank, white trash lies
Never grow, waiting to settle the score
