"Perfect World"

We live in a perfect world with drugs and guns
We live in a perfect world with prison rapes
Pimps and thugs
We live in a perfect world
We live in a perfect world
And doom-soon seems like it's so much fun
We live in a perfect world with terrorists
We live in a perfect world if your rich today
And don't give a shit
We live in a perfect world
We live in a perfect world
And I think we're better off with it
We've seen this before
We only want move
We've seen this before
Now I want more
We live in a perfect world.
