Remember walking on the first time
A future, light in skin and bright brown eyes
It was September, girl you're looking so fine
Sex, pack, sleep fallin' she's my sign

One, two, three, four

Teen lovers, don't wait
Vacation is over, don't wait
Teen lovers, don't wait
Vacation is over, don't wait

Standin' on front street
She's giving me the sign
Incentive: wanna know your DTF
Better look both ways before you cross that line

Five, six, seven, eight
Could you have made a move?
No, it's too late

Teen lovers, don't wait
Vacation is over, don't wait
Teen lovers, don't wait
Vacation is over, don't wait
(x2)
