Love you all my lifetime  
by Chaka Khan

Cold endless summer days  
Since you went away  
Tore my heart in two  
And now wandering through the night  
I see the city lights  
Feelin' so in need, I'll never be at peace

CHORUS:  
Love you all my lifetime  
Lost to you eternally  
Everything in my life  
Tell me we were meant to be

Strange someone's always wrong  
Dreams don't last that long  
What part did I play  
In that game  
And now, now you turn away  
Excuses are too late  
Feelin' so in need, I'll never be at peace--I

repeat chorus

You make the rain and the night go away  
You make the sun rise up in the sky  
You make the rain and the night go away  
You make the sun rise up in the sky

Repeat chorus twice
