English translation

Before you know it, your spirit clings to a boundless
wasteland...
Far away, far away, wanting to sleepUnder a waning
moon, looking up at the sky
Where I go, where I go
The truth is... my friend is...Burst into bloom, flower of
life and youth
Now this place will collapse but tomorrow you will be
hereLight rains down
The stars are eternal
Somehow, surely, forever, watching over usSand falls
through the gaps between my fingers, these happy
days

Far away, far away, an illusion
We are still walking
on along an endless road
So keep on going in the dream of this moment
Come on,
go to sleep, with all your heart, youth
Sometime you use up all your strength,
so stop until that day
A continuous light
The stars are eternal
Somehow, surely, this road will keep on shining
An injured
soldier in the light of the stars
Filled with sympathy, a bed of comfort and love
If you notice, before anyone knows, an endless wasteland...
Far away, far away, wanting to sleep
