English translation

Stretched out, power and power glare across a
moment
At my back, the wind kicks up,
it's a signTear up the stillness, clash together
Thunder!! Power Storm!
Everything is up to fateLight dashes through the

darkness,
faster than anyone
Heated and violent, expansive, dance!
Keep running on the path to victory! Rock Alright! More
than anyone
We'll fly in the endless sky
Rock Alright! Through space
Break through with speed
A blazing saga On a cliff in another dimension, power
and power compete
Breathing before a swaying shadow Brandishing a
moment, sparks scatter
Thunder!! Power Sword!!
Everything is entrusted to fate The moon is full,
the animals roar, release your fangs
Strong and noble, and also flexible
Fly high into the sky of dispute Rock Alright! Always
The endless love of this star I want to protect
Rock Alright! Each future
Embraced with speed
A piercing saga Rock Alright! More than anyone
We'll fly in the endless sky
Rock Alright! Through space
Break through with speed
A blazing saga
