English translation

Always changing, demonic heresy, signs of darkness
draw nearer
No point in arguing, no use for pity,
end this at once!A miracle's power,
anger's soul, together with the storm, within the
thunder
Transform! Become a god!Strike!
Smash it with those fists! The ambition of evil
Blow away those clouds of darkness!

!Howl! In tomorrow's sky, spread out those endless
dreams
The hopes of a ruined worldThe art of an ancient god,
including hot courage, the strongest incarnation
rises!Impenetrable
defenses, the stronghold of demons, the swirling aura
of darkness
Storm and stress, rounded up,
settle the score at once!The flying magma,
the ring of flames, within the storm, accept the will of
god
Transform! Cross swords!Sword brandished,
brush away that blade, this nightmare
Break through the devious traps!
Shine! In this world, embrace the love of people
Reclaim the light in the rubbleThe intention of the
gods, these dreams that burn hot,
the legend of the giant gods goes on!
Strike! Smash it with those fists! The ambition of evil
Blow away those clouds of darkness!
Howl! In tomorrow's sky, spread out those endless
dreams
The hopes of a ruined worldThe art of an ancient god,
including hot courage, the strongest incarnation
rises!Steel God Jeeg!
