[Marc Live]

Executive business, this is the final destination
No movie screens, big garbage trucks
Cowboy boots, heavy machineries, you get shut down
Explosive corrosion on kids, we the next the last the
best you never did it
You think you buggin out crazy kids?
We popped a lot of pills to see exactly what
adolescents did
Caged in, the nightstalkers, ten to midnight
Sneak in your window with more "dynamite" than Jimmy
Walker's
Oklahoma City your project, Richard Ramirez your
complex
You got a messed up concept
You see a lot of kids records and tapes
won't go through they little sister's, dollhouse deluxe
Barbie roof
Leave the bar immediately, you can't buy it out
You rappers ball with doubts
You kids are stallin out, you not as big as you supposed
to be
Chicks like snitchin, defecate on your street rep
We know the business, don't front when you see me
Forget the House of Blues and backstage
City stressed out industry chicks in a rented Escalade
I'ma laugh and diss you when you get fired one week
from today
No Def Jam interview segment, you're not stars yet
Regular people, they'll get rid of you people

[Chorus]

Off the chain, one two one two
Off the chain, off the chain
Off the chain, off the chain
Off the chain

[Kool Keith]

"Planet Rock" when we stand on top of the world
like Pow Wow, Mr. Biggs and GLOBE, with speed of a
cheetah

In a Pontiac pearl girls know I'm the club invader
When the SSL move, automated vocals on the fader
Big face like green street, mixed down on a Pentac
console
I bounce my amateur Pro Tools and unique
Watch rappers combat I create headaches, you take
the contact
Easy man watch step, I'm midtown FDR drive controller
Helicopter flyer, women admire
New York 1 News tri-state to Connecticut area, traffic
reporter
Lincoln Tunnel Greyhound, with bags comin under
water from Cuba
Crossin the Miami border
Takin control we want ransom, we got your daughter

[Chorus]

Off the chain, I'm off the chain
We off the chain, off the chain
Off the chain, off the chain

[H-Bomb]

Yeah, you see it, you hear it
I play pianos, blast on Sopranos
Black Zorros, take trips from triangles
Finagles, 64 pounds of 'dro on two tables
Cables, bootleg stables, 7 hoes 3 with Desert Eagles
Fatal, strap blast 4 Winnebagos ables
to ask R. Kelly is that chick legal? Sequels
I never listened to the Village Peoples, equals
to instinct poison the BlackStreet blast heat
Kitties on my feet, Janet Jackson handin out flyers for
keep Greek
Chicks with pimps sticks out the whip, beat down
Where's my shit, take the dip and dip
Call girls slip notes cutthroat
42 Singapore chicks on slave boats promote
Right to vote sniff coke under trenchcoats
Stun guns with high volts don't provoke
Blast crabs, lay dead in the gunsmoke

[Outro]

Off the chain {*9X*}
We off the chain, off the chain
Off the chain, yeah, yeah
