Like a friend, he stays close to you
he speaks clearly, so sincerely
now you see what he's tryin' to do
always smilin', while he's lyin'

Is it time to draw the line?
make him answer to the crime

Whatcha gonna do to him now
that you saw him with you girl?
Whatcha gonna do to him now
that you caught him tith you girl?
are you tough enough?
have you got the guts?
to meet the man
meet the man
do you understand?
meet the man

Now you see through his thin disguise
you uncover scheming lover
see the fear in his guilty eyes
there's no hurry, let him woeeey

Will you fight? You know you're right
is it gonna be tonight?

Bridge:
In the jungle
it's a matter of survival
in the city
it's either you or your rival
