so many problems to many fighting
that's the reason we lost (the reason we lost)
i don't wanna lose it but you pull me against it
now I'm fighting the war
will somebody out there hear me call
where were you when I needed you when I started to
fall
your everything I needed everything I wanted
never tired of leaving me wounded

trapped inside to, way to find out,
gave all my needs to her,
gave the words ima die with her,
she let it fall, I lost it all
now I'm trapped inside, and I can't last alone girl
so wounded (she left me)
so wounded (he left me)
so wounded (she left me)
so wounded (she left me)
so wounded (she left me)
so wounded (she left me so wounded)

i used to be known in a battle of men
i never lost in no war (never lost in no war)
but the day that I met you
it was right to the day I started writing this song
now I admit I never been in a situation like this
loving you is like losing you
but remember promise me you will never strain?

trapped inside to, way to find out,
gave all my needs to her,
gave the words ima die with her,
she let it fall, I lost it all

now I'm trapped inside, and I can't last alone girl
so wounded (she left me)
so wounded (he left me)
so wounded (she left me)
so wounded (she left me)
so wounded (she left me)

so wounded (she left me so wounded)

she let me up up
she let me down down
take a look at me now
she let me up up
she let me down down
take a look at me now
i am your man
baby take a look at me now
i am your man
baby take a look at me now

trapped inside to, way to find out,
gave all my needs to her,
gave the words ima die with her,
she let it fall, I lost it all
now I'm trapped inside, and I can't last alone girl
so wounded (she left me)
so wounded (he left me)
so wounded (she left me)
so wounded (she left me)
so wounded (she left me)
so wounded (she left me so wounded)
