Well the scariest thing you'll ever meet  
On an old twisted country road  
Is a great big logging truck with a  
Long, tilted, heavy load.  
Don't blink an eye or heave a sigh  
Just wave to the friendly guy.  
He's the on the road - look out - logging truck.

Heading out in the morning with his  
Wheels up in a piggy-back  
Half the size of what he'll be  
Except for when he's headed back.  
He likes to make one trip over from  
His count of yesterday.  
He's the on the road - look out - logging truck.

Well the giant in our economy  
Is our B.C. forest industry.  
Keepin' the logs a-rollin'  
He's the first sign of recovery.  
So he's movin' fast hopin' times will last,  
He's passin' you and me,  
He's the on the road - look out - logging truck.
