moon hangs around
a blade over my head
reminds me
what to do before im dead
night consumes light
the honesty i dread
reminds me what to do before im dead

to see you
to touch you

epochs fly, reminds me
what i hide, reminds me
the desert skies
cracks the spies
reminds me what i never tried
the ocean wide salted red
reminds me what to do before im dead

to see you
to touch you
to feel you
to tell you

the sun reclines.....remind me
the desert skies.....remind me
the ocean wide salted red
reminds me
consumes
