Oh camera, take your pictures of the scene  
Oh camera, take your eyes off of me  
Cause I know I'll be forgotten in time yes I know I'll be in  
time  
Just like I was, oh camera

Oh camera, take your pictures of the scene  
Oh camera, take your eyes off of me  
Cause I know I'll be forgotten in time yes I know I'll be in  
time  
Just like I was, oh camera

Light reflect onto the lens refract onto our eyes  
Mirror flip and flip again project 1/8th the size  
Plastic retina, what do you see?  
Light reflect onto the lens refract onto our eyes

Mirror flip and flip again project 1/8th the size  
Plastic retina, what do you see?

Oh camera, take your pictures of the scene  
Oh camera, take your eyes off of me  
Cause I know I'll be forgotten in time  
Yes I know I'll be in time  
Just like I was, oh camera

Oh camera, take your pictures of the scene  
Oh camera, take your eyes off of me  
Cause I know, I'll be forgotten in time  
Yes I know I'll be in time  
Just like I was, oh camera
