### "Change The Water"

Visit "[Change The Water](#)" on [MotoLyrics.com](http://MotoLyrics.com)

I don't work tomorrow  
You can spare an hour of your time  
And I don't mind to travel  
We can go to your place or to mine  
'cause it's been a long week  
I haven't got much sleep  
And I think that we could use some time  
Maybe...

Change the water, add some ice  
Change the water, add some ice

Forget about your sorrow  
Worrying is just a waste of time  
You'll pick up tomorrow  
Whatever you left off  
Just let the world wait awhile  
'cause you got a good job  
Your workin' real hard  
I think you need to ease your mind  
Why don't we...

Change the water, add some ice  
Change the water, add some ice

It's always nice, put on a movie  
Talk about life and just get high  
You know, you're such a good friend  
And it'd be a good end to the night  
But if we do it, let's do it right

Change the water, add some ice  
Change the water, add some ice

Why don't we change the water  
You're such a good friend  
It'd be a good end to our night
