"Thunder In The Sky"

Thunder in the ground,
Changing way
Feeling you pulse accelerate
Feel the thunder in your behind,
Ride the snake up to your mind
Shine the light behind your eyes,
Let the thunder in the skies
Thunder in my eyes
Thunder in my brain
Thunder's in the skies
Bright as rain
Thunder getting closer every day,
Thunder is the beat of the brand new way
Feel a little fire light up your mind,
Thunder in the skies spark in kind

Ooh yeah, with the quickness,
With the quickness x4
