Sunshine dancing on my bed
good times waiting up ahead
nothing's gonna stop me

With a laugh and a joke and a smile
you can go like a million miles
everything's gonna be okay
it's okay, it's okay okay
with a dream and a positive mind
you'll make it everytime
everything's gonna be just fine
it's just fine, it's okay okay

Dream on, dream on baby
let's go and change the world tonight
you can if you believe it
dream on, and you will be alright

My friends; come on, let's celebrate (come on, have a
celebration)
worldwide, starting here today
come on everybody

With a laugh and a joke and a smile
you can go like a million miles
everything's gonna be okay
it's okay, it's okay okay
with a dream and a positive mind
you'll make it everytime
everything's gonna be just fine
it's just fine, it's okay okay

Dream on, dream on baby
let's go and change the world tonight
you can if you believe it
dream on, and you will be alright

Dream on, dream on baby
let's go and change the world tonight
you can if you believe it
dream on, and you will be alright

When the clouds ain't kind and the sun forgets to shine
you gotta keep on trying and remember

With a laugh and a joke and a smile
you can go like a million miles
everything's gonna be okay
it's okay, it's okay okay
with a dream and a positive mind
you'll make it everytime
everything's gonna be just fine
it's just fine, it's okay okay

Dream on, dream on baby (dream on)
let's go and change the world tonight
you can if you believe it (it's okay)
dream on, and you will be alright

Dream on, dream on baby (with a positive mind)
let's go and change the world tonight
you can if you believe it (just remember)
dream on, and you will be alright (you will be alright)

Dream on, dream on baby (oh, heeey)
let's go and change the world tonight
you can if you believe it
dream on, and you will be alright

(I said) Dream on, dream on baby
let's go and change the world tonight (I said dream on)
you can if you believe it
dream on, and you will be alright (I said come on)
