

The Drowners

"Bellingham"

Visit "[Bellingham](#)" on MotoLyrics.com

step into a secret world
where songs will be forever heard
break out of the underground
join the harmony crusade
tell your friends to do the same
spread this sight and sound around

from failure to success
from nothing to excess
overdose on loud guitars
overdose on my big stars

lyrics cutting like a knife
be the flavor of your life
spreading like the wildest fire
start a life of honesty
finger at the industry
we're building something higher
