Barely nineteen, I see you every night  
Whispering between us girls  
Oh yeah, between us girls  
I don't think of him that often any more

All the girls had long hair  
All the boys had long hair  
You were missing out

Once a week I keep an evening free for you  
Does he, teach you things?  
Does he, teach you things?  
That you'd never do for me, oh I know what you mean

All the girls had long hair  
All the boys had long hair  
You were missing out

All the girls had long hair  
All the boys had long hair  
You were missing out

All the girls had long hair  
All the boys had long hair  
You were missing out
