( Angel baby Soundtrack )

Bright and shiny lonely star  
Take my prayer  
Under your wing  
Blow a kiss, a magic spell  
Gently roll the clouds away  
If god ..  
An angel sings  
Your very soul is mine to keep  
Gravity's imaginary  
With your white big fluffy feathered wings  
Hold me closer

And closer, closer still  
Until I'm in you  
Secret world  
Heaven sent  
Is calling you  
And me  
Where blue and green can never be seen  
With all the colour in between  
Hold me closer  
And closer, closer still  
until I'm in you  
Until I'm lost in you
