You might say you give in, you're sick of this  
you might say you'd give up, you've had enough  
you know that ain't true, you know that ain't true  
you got bored, honey that makes two of us

you might tell me again that you had enough of me  
and should we pass on the street, i won't even see you  
but you know that ain't true when you're locked in your  
room  
well i don't do that now, cause honey i'm over you

you know that ain't true, oh that ain't true  
you got bored, honey that makes two of us

and you might tell me again that you had enough of  
me  
should we pass on the street, i won't even see you  
but you know that ain't true when you're locked in your  
room.  
you got bored and honey that makes two of us
