Well I'm a modern guy I don't care much for the go-go
Or the retro image I see so often telling me to
Keep trying maybe you'll get here someday
Keep up the working, ok
I close the book on them right there

I see myself change as the days change over
I hear the songs and the words don't change
I write them out of the book right there

We've been had, you say it's over
Sometimes I'm just happy I'm older
We've been had I know it's over
Somehow it got easy to laugh out loud

See me age 19 with some dumb haircut from
1960 moving to New York City
Live with my friends there we're all taking the same
steps
They're foolish now

We've been had you say it's over
Sometimes I'm just happy I'm older
We've been had I know it's over
Somehow it got easy to laugh out loud
