How many days gone by
I don't know anyone no more
I feel shy, going for a walk, sky blue sky
And [unverified], let them go
Can't see me now, I see the world and you

You're not allowed, I see the world go round
Can't see me now, I see you
How many days gone by
I don't know why we have to fight

It's not me, eating up the words, all I give
People still want me, let me go
Can't see me now, I see the world and you
You're not allowed, I see the world go round

Can't see me now, can't see me now, I see you
How many days gone by
Many dreams have died, I don't care
