"Smile"

I've seen your eyes
I've seen your blue eyes shine at night
An you're mine the rest of my life

Your skin is blue...
Just like the ocean where I drowned you
I don't mind as long as you're mine

Oh dear, my girl, laying next to me
So cool and sweet
And then you smiled
Big blue eyed smile
And then you smiled
For the first time in your life

Your (??) I know
I wasn't the first one to touch you
I don't mind as long as you're mine
