Let's go out in the cool night air

Don't you know that I really don't care

You can drive my foreign car

Without any gas you won't get very far

chorus:

Why can't I talk to you

Why can't I talk to you

Nothing I say ever gets to you

I'm still drunk on MT. Dew

When I see you looking like that

You're about as warm as a baseball bat

You always want me to play the fool

But you couldn't pass summer school

Chorus

You left my goldfish out in the sun

You're still saying I'm number one

El diablo is a good name for a fish

You didn't make it to my final wish

Chorus
