(Verse 1)

I wanna wake up - Pull the shade up,
Raise hell and maybe later get drunk.
Play guitar chords - Till I get bored,
Then maybe just start all over.

Sick and tired - Of this wasteland,
24/7 with my girl on her webcam.
I wanna break out - I wanna scream and shout.
Then maybe just start all over.

HEY! - HEY! - HEY!

(Chorus)

Breaking out like I'm in school
I'm gonna break all of the rules
I always said I'm no ones fool
I am so bored of you

Breaking out like it's my last day
Leave you behind go on holiday
I'm gonna through you in the pool
Cause I am so bored of you

(Verse 2)

Gonna s*** my next door neighbour,
Act like I'm doing her a favour.
Drive a fast car - Max out my credit cards,
Then maybe just start all over.

Feeling alright - Stayed out all night,
Been raising hell, and I'm looking for a fist fight.
I'm like a fugitive - Who broke from his crib,
You make me feel like I'm such a loner.

HEY! - HEY! - HEY!

(Chorus)

Breaking out like I'm in school
I'm gonna break all of the rules
I always said I'm no ones fool

I am so bored of you

Breaking out like it's my last day
Leave you behind go on holiday
I'm gonna through you in the pool
Cause I am so bored of you

(Bridge)

And every girl around the world, never understands.
Some times a man, has got to be a man.

HEY!

(Chorus)

Breaking out like I'm in school
I'm gonna break all of the rules
I always said I'm no ones fool
I am so bored of you

Breaking out like it's my last day
Leave you behind go on holiday
I'm gonna through you in the pool
Cause I am so bored of you
