Excuse me  
yes you, I'd like to talk to you  
I've been watching for the whole night from across the  
room  
and I'd like to share with you a moment

My body's burning looking for your touch  
I push you, pull out  
I didn't know I have the music so much  
I trust you with it and I can't fought  
I push you pull up, I'm..it's a natural heart

Come with me tonight, you're gonna love me  
let me treat you right  
you're gonna love me  
magic's in the air you're gonna love me now  
let me take you there  
you're gonna love me  
Come with me tonight, you're gonna love me  
let me treat you right

I'm gonna take you to a ri..hots  
I push you, pull out I know just what it means to excite  
I'm trippin now I'm on another plane  
I push you, pull you with my inside when you drive me  
insane  
la ra ra ri ra ra ram, la ra ra ri ra ra ram  
la ra ra ri ra ra ram, la ra ra ri ra ra ram

You gotta love me, come with me tonight  
you're gonna love me, let me treat you right  
come on and love me, magic is in the air  
you're gonna love me now, let em take you there  
you're gonna love me

Habibi

You gotta love me, come with me tonight  
you're gonna love me, let me treat you right

come on and love me, magic is in the air  
you're gonna love me now, let em take you there  
you're gonna love me
