Just me and my bitch, my bitch uh  
Just me and my aha uh yo

I was like twelve when I took that inhale  
I didn't know how to feel, I was just dingin' your smell  
I don't know what you did but fuck what you did it well  
Cuz like 10 years fell and I'm still under your spell  
I even shown what my friends is, swear that you're an  
opportunist  
Baby girl, me and you - we're a fuckin' unit  
You're my booster when I pass, your excuse of ruining  
this  
Coming back, this how we usually do it  
I know you've been around forever but fuck it, I still love  
you  
I'mma stand up for you when the square niggas judge  
you  
You'll be Air 1 E cuz you understand the hustle  
All I ever wanna see, I let no one stand above you  
How can I repay you for feelin' so priceless?  
Damn, you got me feelin' like this  
I'mma spend it all on you, fuck the prices  
And never ever ever ever leave, me and my bitch

Just me and my bitch  
The money girl  
Just me and my bitch  
You'll always be my bitch  
Just me and my bitch  
Just me and my bitch  
Just me and my bitch, Just me and my bitch  
The money girl  
Just me and my bitch  
I love you girl  
It's just me and my bitch  
Just me and my bitch  
Just me and my bitch  
Just me and my bitch  
Just me and my bitch

Baby, we have a bond that is not to be broken

Even though our relationship's status so open  
Girl without you I'm alone when I got you walkin'  
focused  
That's why each and every day, every hour I'm smokin'  
Lifted from my misery and driftin' in my memories  
They told me I should leave you but I knew that we was  
meant to be  
I see you're with my tendencies, TAC the chemistry  
Been around the world and there is where you've been  
for me  
If I could marry you, it'd be my honor  
Forever me and you, Doms and Marijuana  
My loyalty for you has never been the problem  
Cuz you was even down when I hid you from my mama  
You mean everything for me, if you leave I'll be the  
saddest  
Even if the feds that you're illegal, I'mma have it  
I'mma let your love burn cuz I need it, I'm an addict  
I might just even get you tatted

Just me and my bitch  
The money girl  
Just me and my bitch  
You'll always be my bitch  
Just me and my bitch  
Just me and my bitch  
Just me and my bitch, Just me and my bitch  
The money girl  
Just me and my bitch  
Just me and my bitch  
Just me and my bitch  
Just me and my bitch
