(Nathan)

We're drunk on love,  
So turn the music up  
I wanna loose control,  
We're gonna loose control  
We going out tonight  
Going with no invite  
I want to take it home  
We're gonna take it home

(Jay)

I'm a lover not a hater,  
Not a fighter or a player  
And I'll party to the sun comes up  
Getting a hangover without a cure  
We could end up anywhere  
But that's all part of the rush

(Max)

When the lights are shining  
That's where you will find me  
Getting drunk on love  
That's what we do,  
When I see you dancing  
Gets me so excited, girl  
I pour my love all over you

(All)

We're drunk on love  
We're drunk on love

(Siva)

We're drunk on love,  
We're going to light it up,  
The fire never ends  
This fire never ends,  
And when tomorrow comes  
We're gonna hear those drums,  
And do it all again,  
Lets do it all again
