I wanna break through the crowd,  
just to get to you,  
I wanna dial your number and loose that busy tone,  
just to get to you,

Tell me your secret code to pick open your locks,  
I'm gonna drive right over this damn traffic jam,  
and climb over your barricade,  
come flyin' through your door,

'cause I've got to get through to you,  
yea you walked out on me before and left me all  
alone,Ã,Â  
'cause I've got to get through to you,  
you threw my stuff out on the lawn I'm feeling' all  
alone,Ã,Â  
I wanna be your messenger that brings good news to  
you,  
I'll be leading the cavalry at dawn ,  
through the jungle and fog, just to get to you,

I'll be your lifeboat when your ship is taking on water,  
I'll put this song on your ipod can you hear my  
heartbreak now,  
put that cellphone down, yea you're dragging my heart  
down

'cause I've got to get through to you,  
yea you walked out on me before and left me all  
alone,Ã,Â  
'cause I've got to get through to you,  
you threw my stuff out on the lawn I'm feeling' all  
alone,Ã,Â
