When I walked out of the ruins
And I saw you gettin' your hands dirty in the ground
Yea dig into the roots girl, Yea reach down deep into
the ground

But isn't it a sin to love you wild, But deep in the ground
there's one thing we found, Cause girl we're rising up,
and we'll reach to the sky

Bone of my bone flesh of my flesh The good Lord
formed you out of the dust and He picked you from the
ground, Yea dig into the roots girl, reach down, deep
into the ground.

But isn't it a sin to love you wild, But deep in the ground
there's one thing we found, Cause girl we're rising up,
and we'll reach to the sky

But isn't it a sin to love you wild, But deep in the ground
there's one thing we found, Cause girl we're rising up,
and we'll reach to the sky
