"Stay The Same"

Visit "[Stay The Same](#)" on MotoLyrics.com

You're changin', you're only 3 years old,
slow down dear, 'cause growin' up is fool's gold,
Alphagetti is really all there is,
it's much more satisfying than showbiz,

and you're changing, such a beautiful flower,
and your smile is glowin' through this rain show,
stay on that swing till the night falls down,
I'll carry you on my shoulders,
if you promise you'll stay small,

You're my sunshine through the rain shower,
you're the crowning Gold on the wild flowers,
just let your love flow down on this day,
please don't change, just stay the same,

I know you must grow up girl,
but let me spin you around and around,
our love was written in the Book of Life (Repeat
Chorus).

and you're changing, such a beautiful flower,
and your smile is glowin' through this rain show,
just let your love flow down on this day,
please don't change, just stay the same,
