Kim Possible soundtrack
"E Is For Everybody"

Close your eyes and count to ten

Let's do the alphabet again

Keep wishin' that this night

Will never end

A is for anybody,

That you want to be tonight

B is for by the beach,

Dancing in the firelight

We'll see you, see you, see you

We'll see you, see you, see you

D is for definite,

Defiantly costar clear

E is for everybody,

This will be the freshest year

We'll free you, free you, free you

We'll free you, free you, free you

Close your eyes and count to ten

Let's do the alphabet again

Keep wishin' that this night

Will never end

(E is for everybody)

Close your eyes and count to ten

Let's do the alphabet again

Keep wishin' that this night

Will never end

(E is for everybody)

G is for go-go girls,

Rockin' on the floor tonight

H is for hooligans,

Startin' trouble is a might

I'll see you, see you, see you

I'll see you, see you, see you

J is for jumping jacks,

K is for cooler kids,

They know how to treat you right

Let go, let go, let go

Let go, let go, let go

Close your eyes and count to ten

Let's do the alphabet again

Keep wishin' that this night

Will never end

(E is for everybody)

Close your eyes and count to ten

Let's do the alphabet again

Keep wishin' that this night

Will never end

(E is for everybody)

E is for everybody,

U is for us,

K is for cooler kids,

So get up on the bus

(x 4)

M is for breezy music,

Let your dancin' to tonight

N is for never ending,

Celebrate the morning light

One more, one more, one more

One more, one more, one more

P is for mellow people,

Groovin' in the afternoon

Q is for quiet time,

Late nights starin' at the moon

Close your eyes and count to ten

Let's do the alphabet again

Keep wishin' that this night

Will never end

(E is for everybody)

Close your eyes and count to ten

Let's do the alphabet again

Keep wishin' that this night

Will never end

(E is for everybody)
