From the first day,  
When I say you go away  
Buddie I can't live without you  
Promised we'd be together for ever---  
And I am missing you now,  
I hope you know that with out a doubt,  
And I realy wish that I could see you again  
I deserve a chance honey just give me one  
Let me just try i will prove you suspisions wrong  
I would never hurt you like that  
No not in my life why can you see?  
That isn't me-----  
To many a day  
I will sit by myself,  
And I will put on a smiling face for the world but it hides  
a frown, when my world was could ,  
When I was lonely you gave me a hand to whold,  
I will never for get you I just wont let you down I  
promised i would stay strong for you but how can i  
keep that promise now? no matter how far apart , youre  
always in my heart.....
