[Fatt Father]

Yo FK doe, let me get at you man. (Well who are you?)  
It's Fatt Father, the invisible man  
Known to enter the scene without being scene  
Make you drop your chicken wings, giggle pick up 'em  
and leave  
Skinny people mad, I stick 'em and I flee  
The only thing they got for cops is "I heard that nigga  
breathe!"  
Because I stall like I'mma sleep when I walk  
Take from all the rich folks and give to the poor  
A Fatt individual on which you can't get a visual  
Come to your crib, get in and diminish you  
They say my Father was nothing, we identical  
Don't get caught, or be stomped with your own tennis  
shoes  
You can't grab what you can't see  
So when he grabs you in mid air, bow down and thank  
me  
Bastard of the D like (?) to (?)  
You saw what? Ahha, it ain't me!

[Chorus - King Gordy]

Here we come to save the day  
FK. FK. FK  
Fat-tastic 4  
Here we come to save the day. (Start the riot)  
FK. FK. FK

[Shim-E Bango]

They call on the Fat-tastic when things get drastic  
I'm in your park swooping up your picnic basket  
I give my arm a stretch. That a way  
With the talent to tap ass from a block away  
For all y'all criminals who lack the minerals  
You're crew will get wet like my breakfast cereal  
I'll shift my shape. My shape'll shift  
Till you be like "Damn, what shape is this?"  
I rock a lab coat and some crispy Air Ones  
You thug will get plugged

Go head and flare guns  
Bullets'll bounce off me  
Go head try it  
the Fat 4 got your whole crew quiet  
(When it's a riot) I grab villain by the throat  
like Spreewel, but don't release 'em till his necks broke  
I mean hell, people are pissed the can't grab me  
Suck in, puffin the wind like Trick Daddy

[Chorus - King Gordy]  
Here we come to save the day  
FK. FK. FK  
Fat-tastic 4  
Here we come to save the day. (Start the riot)  
FK. FK. FK  
Fat-tastic 4

[Marvwon]  
Testin us when your crew done lost. (Who are you?)  
It's Marv Wonder for the human torch  
I'm burning wack rappers in the blink of an eye  
They ain't been misled (but somehow, I don't think they  
can die)  
Y'all employ guns, I retire heaters  
I'm born to a full black girl and a fire breather  
Give me five lighters, I can turn to a fifth  
that'll punch your ass in the mouth (and leave you  
burned to a crisp)  
When I spit its arson, they be hopin I quit  
I burn writers and turn ciphers into bits  
And then I love barbecue. You wanna start with who?  
Ain't too many alive that can do what Marvin do  
You trynna douse me? Bring whoever you got man  
It runs in the family, my little brothers the hot man  
So if you desire beef  
When I scorch you, no police, caught on fire, g  
I'm Fat-tastic

[Chorus - King Gordy]  
Here we come to save the day  
FK. FK. FK  
Fat-tastic 4

[King Gordy]  
Here comes the thing. With them two braids  
He's always gettin high, drinkin a cup of Kool Aid  
He listens to rock and roll and moshpits with white  
people

He wont get off of your soul, believe me, he's quite evil  
You ain't heard none nicer. Will be absurd price for  
Rimy, Kristyle, but for now get him Budweiser  
In the club I'm rubbin heineys, bussin, they love it  
then plug her with something that make her wanna run  
for her husbands  
I break up homes. (What?)  
Just cause I'm fat, funny looking you dont think that I  
can take your hoe?  
I was made for drama, don't get crazy dog  
Cause you caught my chillin on 32 inches parkin lot  
pimpin your baby momma  
Gordy came out of a comic, take one look and you'll  
vomit  
I'm comin hard than comets, bomibin your continent  
FK got a lot of hits, they so appealin  
Prepare to have you knees ate with corduroy fillin

[Chorus - King Gordy]

Here we come to save the day

FK. FK. FK
