I'm weak, lack of sleep, with nothing to eat/ With the devil tempting me yo it's hard to seek/ Come on and take me, break me, devastate me, enslave me/ Cause I'll win in the end my friend because Jesus saved me/ Think I'm playin' think again/ Fool I'm dead to sin/ No matter how many times your lies get under my skin/ You can attack me and stab me/ But I'm the one who's laughing/ I'm grabbing for my sword the Lord says you can't have me/ Go for your guns is that your best shot?/ Is that all you got?/ This is gonna be easier than I thought/ I was bought at a price, a price of sacrifice/ No greater sacrifice than the blood of Christ/ The love that Christ gave when He gave His life/ So I might receive eternal life despite that I/ Am not worthy or deserving/ But God sees that I'm hurting/ His love is curing and His grace is reassuring not blurry/ Scurry demons start fleeing from the three in one/ Where's your guns?/ I got mine in the Son the Holy One/ One on one you can't hang bang D you get lift/ I was looking for a challenge you obviously ain't it/ You ain't ish and I'm sick that you think that you is/ Eternal bliss is secure in the Word and I'm His/ You got me seeing red/ With all the ones you brought to the dead/ The Godhead is giving instructions and this is what He said/ For the martyrs and saints it's time to shut up the devil/ For the martyrs and saints it's time to shut up the devil/ For the martyr and saints it's time to shut up the devil/ For the martyrs and saints!

Just bring it jabroni/ Phoney homie you don't know me/ Thought I told ya that this souljah's solely rolling with the One and Only/ Full of balony, all your deceptions and lies/ Said I was worthless and it hurt yes but I keep my eyes to the skies/ The bigger prize, Jesus Christ, my Lord and saviour/ Bow down to the one that's greater/ Bow Down to the one that made ya/ Hey playa the creator is greater than all you haters/ This is war we kicking down downs and taking names later
