

The Wedding

"It's Time To Rock"

Visit "[It's Time To Rock](#)" on MotoLyrics.com

We drive all day and drive all night
You're a part of this fight.
Don't let that sleeping dog lie, boy

Cause everywhere we go they want more
Than what the world can offer.
Bring it back one more time.

I can't keep quiet the things that I gotta say.

Chorus:
They bring 'em in on stretchers and when they leave
they're walking out.
That's what our God's about, ok? (x2)

Here we go, are you ready?

We're making strides we're doing fine,
We're just starting to climb.
You better get yourself in line.

Cause we don't have time we're moving forward and
we'll never stop.
So make up your mind you're either with us son or
you're not.

I can't keep quiet the things that I gotta say.

(Chorus)

Move over. Move over
'Cause you're starting to drag me down.
And I won't let anything stop me now.

Take your place here with me.
You know me there is nothing that I won't do
