verse 1:

YEEEEAAHHH!

we drive all day and we drive all night. you're a part of this fight. don't let that sleeping dog lie, boy! Cause' everywhere we go they want more than what the world can offer. bring it back one more time. i can't keep quiet the things that i gotta say.

Chorus:

they bring 'em in on stretchers and when they leave they're walking out. that's what our God's about.

verse 2:

here we go! are you ready?

WHOOO!

we're making strides; we're doing fine. we're just starting to climb. you'd better get yourself in line, boy! cause we don't have the time. we're moving forward and we'll never stop. so make up your mind. either you're with us, son, or you're not.

Bridge:

I can't keep quiet the things that I gotta say. Move over.
Move over; cause you're starting to drag me down.
And I won't let anything stop me now.
Take your place here with me.
