c))you gotta live your life
ah to the fullest
always have in mind
that your the coolest
represent hard
and come legit
dont let them other succers
wanna make you quit
ah wanna make you quit
ah wanna make you quit
dont let them other succers
wanna make you quit
dont think of the future
or of the past
life flows
as it goes
dont get there fast
may all your craves
and dreams come true
dont need to rush
let it come to you

c)

lots of obstacles in life

that you need to know

they get stuck in your head

just let it go

today's the day

right now's the time

dwelling on before

now thats a crime

c)

tomorrow maybe

another day

dont know if you live or die

but you know today

be careful of

the next step you make

live to the fullest

it might be the last you take

c
