Inhale the void  
And try to sustain the feeble  
Heartbeat that pulses within  
We can't breathe here  
We can't exist here  
Can't exist  
We have desecrated the material cycle  
Tainted these immortal structures  
What a waste  
What a travesty  
We are the violated  
We are a glitch in the  
Cosmic blueprint, pure irony  
Disassemble this plane  
There's no way to return  
This dimension is corrupted  
Resistance, a futile endeavour  
Destroy the tangible self  
Existence as a carbon based form  
Is our antithesis  
A void heard swan song  
Echoing out across the eons  
Echoing to take us all  
The cycle begins again  
Structures to radicals  
Warring with the tenants of science  
Disassemble the forces at work  
Manipulate the frequencies  
Incinerate, recreate, invalidate

Whenever there is a need for absolute silence, you all  
Speak. And when there is need of speech, you  
Remain as silent as the void. When you are present in  
This moment you desire nothing more than to be  
Absent, yet when absent you cry out in despair. In  
Peace you formulate war, yet while warring you  
Desire peace. In your mind, you descend on bravery  
and  
Strength yet in this battle you tremble

We are the violated

We are a glitch in the  
Cosmic blueprint, pure irony  
Disassemble this plane  
There's no way to return  
This dimension is corrupted  
Resistance, a futile endeavour  
Sentience is the antithesis of evolution  
Crush this structure so we may no longer feel  
Reanimate this form  
A grotesque marionette  
Kneel and disconnect  
Disconnect from the cycle  
Corrupt the strings, contaminate  
Our frequencies distorted  
In an agonised symphony  
We embody the event horizon
