1,2,3,4. They say you can't look back just let it be because if you looked you'd have never found me. This goes for you and all those things we wished we had. Just stop right there think about it and it won't make you so sad.

\*Chorus\*

If I know you like I think I know I will see you soon. If I know you like I wish I knew you it will be real soon.

They say you can't look back just let it be because you did not look and look you found me. Easier said than done but I hope that we're not done because this is all I want and you are all I need.

\*chorus\*
