("Tonight the [...] is going to begin.")

You could tackle the trainer then run for two days
through the end of all ghettos, a junkyard in the rain
She appears in a hail of carbon and steam
with a hissing of brakes and a fire-alarm scream

CHORUS:

Let me in, let me in, let me in oh please--1,000,000%,
1,000,000%

And you cannot escape her--no creator!
And you love and you hate her--no creator!
and you should have [...]--no creator!
You're no fuckin' saviour--no creator!--CHORUS

("Oh, dear, what a mess.")

It's the [...] disaster, run faster and faster
Run, run, run!
Let me in, let me in...

("What a little whore you are!")

("Oh, my god.")

("Can I piss on your friend?")

The new day dawns and another one spawns
The new day dawns and another one spawns
[...?]

("The herald of the new age!")
