Walk softly, don't want to disturb the dead
Is it an enemy in front of me, or have I been misled
Should I stay or fold, I think I'll pack my shit and go
I've always been the wait around type, underground
Nothing more than a friend

Wear these clothes, walk this way, do exactly what they
say
It's your life, but their way, follow me, it's all the same
(x2)

So count your chips and roll the dice
You might find that it's twice as nice around and
around again
(Get in where you fit in)
I know it's quite deceiving
When I look but I don't see me around and around
again
(Get in where you fit in)

Think that I might try it, find another way to buy it
I should just get out of my way, no
I guess this ain't so bad, it was the best time that I
never had
It's my move and my say, I think I like it this way

Wear these clothes, walk this way, do exactly what they
say
It's your life, but their way, follow me, it's all the same
(x2)

So count your chips and roll the dice
You might find that it's twice as nice around and
around again
(Get in where you fit in)
I know it's quite deceiving
When I look but I don't see me around and around
again
(Get in where you fit in)
How does it feel to be alone
How does it, now how does it feel to be (x2)

Wear these clothes, walk this way, do exactly what they
say
It's your life, but their way, follow me, it's all the same
(x2)
Yeah
Scene Change, La da da la da da da da
We Change, La da da
Can you get in where you fit in (x2)

So count your chips and roll the dice
You might find that it's twice as nice around and
around again
(Get in where you fit in)
I know it's quite deceiving
When I look but I don't see me around and around
again
(Get in where you fit in)

Cross my heart and hope to die
I'll make it through this common lie
Your move, their way, can you get in where you
Cross my heart and hope to die
We'll make it through this common lie
Your move, their way, can you get in where you fit in
