See all the people  
With hatred in their eyes  
I can't help thinking that  
It's only a disguise  
Cause underneath that core  
There's got to be more  
Than what we realize

Maybe they're scared  
To let the inside out  
Maybe they're afraid to  
Show what they're all about  
So they put on a heavy front and hope that no one else  
Can work them out  
So they put on all the heaviness  
But its only an illusion heaviness  
Can't you see  
They're scared to  
Show a little bit of emotion  
A little bit of real emotion  
In case a little bit of emotion  
Gives them away

Look at that lady dancing around with no clothes  
She'll give you all her body  
That's if you've got the dough  
She'll let you see most  
Anything but there's one thing  
That she'll never show  
And that's a little bit of real emotion  
A little bit of true emotion  
In case a little bit of emotion  
Gives her away  
But it's a shame she's acting that way  
Somehow she's gotta get through every day  
And the only way  
Is not to show one little bit of emotion  
A little bit of true emotion  
In case a little bit of emotion gives her away

People learn their lines

And they act out their part  
Then they talk on cue  
But it's got no heart  
It's all on the surface  
And it's all contrived  
They're scared to come out  
Somehow they've got to survive

Look at that looney  
With a smile on his face  
He knows no shame  
And feels no disgrace  
He's got a look in his eyes  
That makes it seem that he's from outer space  
Maybe that looney knows what it's all about  
He's got something to say  
But he can't spit it out  
He's unco-ordinated so we shut him out  
In case he shows a little bit of emotion  
A little bit of real emotion  
We're afraid to see a bit of emotion  
So we walk away  
Show a little bit of real emotion  
Show a little bit of emotion  
We're afraid to see a bit of emotion  
So we walk away
