In a space allocated to me by the human race  
Inhabiting this area until I die this space is occupied  
I'm in a space leased by kind permission of the human  
race  
Close up I am big but far away I'm small and hardly  
here at all  
'Cause in a space out in space  
We disappear without a trace

Now I'm out in inner space  
And lookin' at the people. standing face to face  
And filling up the space  
Men and women boys and girls  
There are so many people in the world  
Thinkin' about the world  
And all the people in it  
And I'm staring at the stars  
And into the infinite  
In a world within a world  
On a planet that's  
Driftin' in a space

Seconds into minutes and minutes  
Into hours and hours into days  
And days into months and months into years  
And years into decade tens into thousands  
Thousands into millions, millions into billions  
Billions into zillions and forever and forever

In a space allocated by the human race  
Somewhere in outer space it's far away and I like it that  
way  
Now I'm out in inner space  
And lookin' at the people, standing face to face  
And filling up the space  
Men and women boys and girls  
There are so many people in the world  
Thinkin' about the world  
And all the people in it  
And I'm staring at the stars  
And into the infinite

In a world within a world  
On a planet that's  
Driftin' in a space

In a space, in a space, in a space  
Now I'm out in inner space  
And lookin' at the people standing face to face  
And filling up the space  
On a planet that's  
Driftin' in a space
