One two three four

Never been anywhere, south of the Delaware  
Never been through Kalamazoo  
Never been to Timbuktu

Livin' is fantasy, travelin' mentally  
Makin' up tunes in hotel rooms  
'Bout places I've never been to

Though I've never crooned under a Kentucky moon

I had my dream, Kentucky moon  
But it's only moon dreams  
From songs, films and TV

But I can visualize, what I've never seen?  
But I had my dream, Kentucky moon

Route sixty six to me is still a mystery  
And Ohio, too  
Went Chicago blue down to St. Louis blues

Never been anywhere, south of the Delaware  
Never been through Kalamazoo  
Never been to Timbuktu

But I can visualize, what I've never seen?  
So I sit and dream, Kentucky moon

As I sit by a stream in the moon  
But it's just imagery  
From songs, films and TV

But I can visualize, what I've never seen?  
So I sit and dream, Kentucky moon
