See that girl walkin' down the street  
She looks like a prima donna  
She's a star in her head and the world's at her feet  
She looks at you twice and your heart skips a beat  
She didn't learn it at high school or from a glossy magazine  
You see she's a natural, she gotta natural gift  
You gotta rise above your stupidity  
You're dumb but don't give in  
You gotta rise above your station  
Discover what's within  
And with some luck and dedication and some careful manipulation

Everybody needs some inspiration  
Everybody needs some motivation  
Mix it up with some imagination  
And use your natural gifts, you gotta natural gift  
You got natural gifts  
Ah, hey, hey, hey, ah, hey, hey  
And use your natural gifts, you got natural gifts

You don't have to be a genius to find  
All the hidden potential deep in your mind  
You don't have to know about nuclear physics  
Know all the formulas and vital statistics  
You don't have to be an intellectual, you don't have to be a scientist  
To use your natural gifts, you got natural gifts, yeh  
Use your natural gifts, you got natural gifts  
You gotta stop this depression you're in now  
Stop this emotional rift, you need a psychological lift now  
Everybody needs some inspiration, everybody needs some motivation  
Mix it up with some imagination and use your natural gifts  
There are bad people, mad people, bitter people, scared people  
Wanna put you down and keep you in your place  
But you gotta chance to break out, you gotta chance to

get out  
And use your natural gifts
