Chorus:

You make it seem so easy all the time
You amaze me with the way you look at life
It's not so bad it all works out
That's what you say when I get down
You turn my world around, Yeah
You make it seem so easy

Sometimes life's overwhelming
Don't see an end in sight
You put things in perspective, into a brighter light

Repeat Chorus

You keep a perfect balance
Between the highs and lows
Your steps are sure and solid
Down any kind of road
And when I'm feelin' broken
Beat up and all done in
You kiss me where it's hurtin'
And I am whole again, yeah

You make it seem so easy all the time
You amaze me with the way you look at life

Repeat Chorus
