I will not forget You
Even far awayâ€¦yeah
And I will ever praise You
Sing praises to your name

Chorus 1

As I walk along, I feel You by my side
As I run to You, I'm laying down my pride
So You can light Your fire inside

My soul finds rest in You
Until salvation comesâ€¦yeah
You're my Rock and my Fortress
You cannot be undone

Chorus 2

So I pour out my heart, for You are my King
And my hope comes from You, taking refuge in Your
wings
So this burning heart can ever sing
